

FISHKILL RECREATION PRESENTS

Cybercrawler Robot (ages 7-11)

Build and take home your very own Cybercrawler Robot! This smart coding robotics kit entertains and teaches programming skills to inquisitive young future robotic engineers! With the aid of your instructor, you will each assemble your own robot that consists of 76 pieces. Once completed, a simple press-button programming keypad embedded on its cranium will send your Cybercrawler on its way!

CSI: Crime Scene Investigation (ages 7-11)

Come join our Minds In Motion Crime Team in this fun and interesting program! We will provide you with all the tools you need to become your very own crime scene investigator. Learn all about forensics, searching for evidence, and gathering clues and bring home your very own detective kit! Working in groups, you will conduct many science experiments in our crime lab to solve the mysteries at hand. You will learn all about fingerprinting and how to classify them and bring home your very own fingerprint classification sheet! You will also perform chemical analyses and observations working with powders, liquids, and much much more!

Minds in Motion LLC is dedicated to providing the highest quality programs to inspire and educate elementary school aged children in a fun, interesting, and hands-on approach. Our goal is to have a healthy and successful company that is a leader in providing children with camps.

Director, German Galindo - twenty five years experience running science programs for kids nation wide!
